

YOLO COUNTY

AGRICULTURE - WEIGHTS & MEASURES

Humberto Izquierdo Agricultural Commissioner, Sealer of Weights and Measures

120 West Main Street Suite D, Woodland, California 95695

FROM: Agricultural Commissioner

SUBJECT: 2025 STRUCTURAL REGISTRATION

Thank you for submitting your Structural Registration form to Yolo County for the 2025 calendar year.

Reminder regarding Written Notice to Occupant (B&P Code 8538) and Pesticide Disclosure (Title 16 CCR 1970.4):

Business and Professions Code 8538 – Written Notice to Occupant: When you start a new pest control contract, change the frequency for which treatment is done on an existing contract, treat for new pests, or use new pesticides; you must provide a new written notice to occupant. The notice shall be provided no later than prior to application and must be provided to the owner, or owner's agent, and tenant (including new tenants), if there is a tenant, in at least one of the following ways: First-class or electronic mail, posting in a conspicuous place on the real property, or personal delivery.

Title 16 California Code of Regulations 1970.4 – Pesticide Disclosure: For multi-family dwellings (apartments, condos, etc.) consisting of more than 4 units, the owner/owner's agent shall receive notification and other notices shall be posted in heavily frequented, highly visible areas including, but not limited to, all mailboxes, manager's apartment, in all laundry rooms, and community rooms on all external pest control servicing. Complexes with fewer than five units will have each affected unit notified. Any pest control servicing done within a tenant's apartment requires that the tenant be notified. If the building is commercial or industrial, the notice shall be posted in a conspicuous place.

If you plan to perform fumigations in Yolo County, we request that a Notice of Intent be submitted 24 hours prior to the application. The Notice of Intent shall be given in person at the Yolo County Agricultural Commissioner's office or by a telephone-answering device available 24 hours, (530) 666-8142:

Further, if you plan to use the product Avitrol in our county, please submit an initial Notice of Intent. This will help us when answering complaints, should they occur.

The Notice of Intent shall include the following information:

1. Your name, the date and time of call.
2. Telephone number.
3. Applicator (Licensed Operator).
4. Location of application (street address).
5. Material to be applied.
6. Rate/Dosage.
7. Commodity/site to be treated.
8. Pest to be controlled.
9. Beginning date and time of application.

Please see the reverse page for the updated surface water protection regulations, CCR section 6970 and 6972, effective July 19, 2012.

esfenvalerate fenprothrin tau-fluvalinate permethrin phenothrin prallethrin resmethrin tetramethrin

(a) Except when prohibited in (e), applications to the soil surface, mulch, gravel, lawn, turf, or groundcover must be made using only the methods described below:

- (1) Spot treatment
- (2) Pin stream treatment of one-inch wide or less
- (3) Perimeter band treatment of three feet wide or less from the base of a building outward
- (4) Broadcast treatment but not within two feet from any horizontal impervious surface. Pin stream treatment of one-inch wide or less may be made within the two-foot area.
- (5) For broadcast treatment of termiticides to preconstruction sites, prior to precipitation, the treatment site must be covered with a waterproof covering, such as a polyethylene sheet, or a concrete slab must be poured over the treated soil.

(b) Except when prohibited in (e), applications to windows and doors, and horizontal impervious surfaces must be made using only the methods described below:

- (1) Spot treatment
- (2) Crack and crevice treatment
- (3) Pin stream treatment of one-inch wide or less

(c) Except when prohibited in (e), applications to vertical structural surfaces, such as walls, foundations, and fencing, must be made using only the methods described below:

- (1) Spot treatment
- (2) Crack and crevice treatment
- (3) Pin stream treatment of one-inch wide or less
- (4) Perimeter band treatment up to a maximum height of two feet above the grade level.

(d) Except when prohibited in (e), for applications using granules to the soil surface, mulch, gravel, lawn, turf, or groundcover, the applicator shall sweep any granules that land on horizontal impervious surfaces onto the treatment site.

(e) **The following applications are prohibited:**

- (1) To any site during precipitation, except for applications made to the underside of eaves;
 - (2) To the soil surface, mulch, gravel, lawn, turf, groundcover, or horizontal impervious surfaces with standing water, including puddles;
 - (3) To a sewer or storm drain, or curbside gutter;
 - (4) To the following components of a constructed drainage system that drains to a sewer or storm drain, curbside gutter, or aquatic habitat:
 - (A) Visible drainage grate connected to a drain pipe; or
 - (B) Visible french drain, or a landscaped dry river bed, swale or trench filled with gravel or rock;
 - (5) To the soil surface, including preconstruction termiticide sites, mulch, gravel, lawn, turf, groundcover, or horizontal impervious surfaces within 25 feet of aquatic habitat located downgradient from the application. The applicator shall measure the distance from the high water mark or intermittent streams that are dry from the top of the near bank; or
 - (6) To the preconstruction termiticide site within 10 feet of a storm drain located downgradient from the application.
- (f) Application to plants, shrubs, or trees where there is standing water in the dripline or perimeter of the plants, shrubs, or trees is prohibited.

NOTE: Authority cited: Section 11456, Food and Agricultural Code.

Reference: Sections 11456 and 11501, Food and Agricultural Code.

6972. Exemptions from Surface Water Protection in Outdoor Nonagricultural Settings.

The following applications are exempt from the provisions of section 6970:

- (a) Injection into soil or structural materials, such as bricks, concrete, or wood.
- (b) Post-construction rod or trench termiticide application methods.
- (c) Applications to below-ground insect nests or nests made of mud or paper combs.
- (d) Applications of baits in weather-proof stations or gel baits.
- (e) Pesticide applications to receiving waters for which a permit has been issued under the Statewide General National Pollutant Discharge Elimination System (NPDES) for Pesticide Discharges to Waters of the U.S. from Spray Applications, and Vector Control Applications.
- (f) Applications to the underside of eaves.
- (g) Foggers or aerosol applications.

NOTE: Authority cited: Section 11456, Food and Agricultural Code.

Reference: Sections 11456 and 11501, Food and Agricultural Code.
